floor plan_

Our gallery space features state-of-the-art Erco lighting designed to museum standard, traditional solid oak flooring, craftsman-designed shelving and fittings, all located in the centre of the historic City of Ripon.

Car parking is plentiful and within three minutes walk, there is also a loading area twenty metres from the gallery.

We intend to convert of the upstairs rooms into private viewing areas which should take place over the coming year as we expand our catalogue and the range of services that we offer.
